1. Description

The **SCD (Smart Currency Detector)** plugin is a good currency conversion solution, giving the possibility to each user of an e-commerce platform, to make purchases or operations in the desired currency. **The Bookings and Appointments For WooCommerce Premium and Dokan WooCommerce Bookings Integration** plugins are booking solutions for the administrator, customers and sellers of a Dokan multi-seller e-commerce platform. By pairing these plugins on an e-commerce platform, we realized that the currency conversion was not taken into account by the two booking extensions (**Bookings and Appointments For WooCommerce Premium and Dokan WooCommerce Bookings Integration**) hence the creation of the **SCD plugin ph booking appointments woocommerce and ph bookings integration addon** for compatibility with **SCD** products. The purpose of this plugin is therefore to allow a perfect conversion on the pages created by the plugins mentioned above.

2. Warning

To use this plugin, it is necessary or mandatory to have a minimum of the following plugins and tools:

- ✓ SCD Smart Currency Detector Free-Variant
- ✓ SCD Smart Currency Detector Premium for Dokan

To download these plugins, go to this link: <https://www.gajelabs.com/.../>. All the features described in this

document are referenced to the premium version of our plugin. For any questions regarding our plugin, please write to the following address: support@gajelabs.com. Our support team is available around the clock and can assist you in real time in several languages (English, French, Spanish, Italian, German)

3. Features of the SCD plugin ph booking appointments woocommerce and ph bookings integration addon

- give customers the opportunity to make their reservations correctly in the currency of their choice.

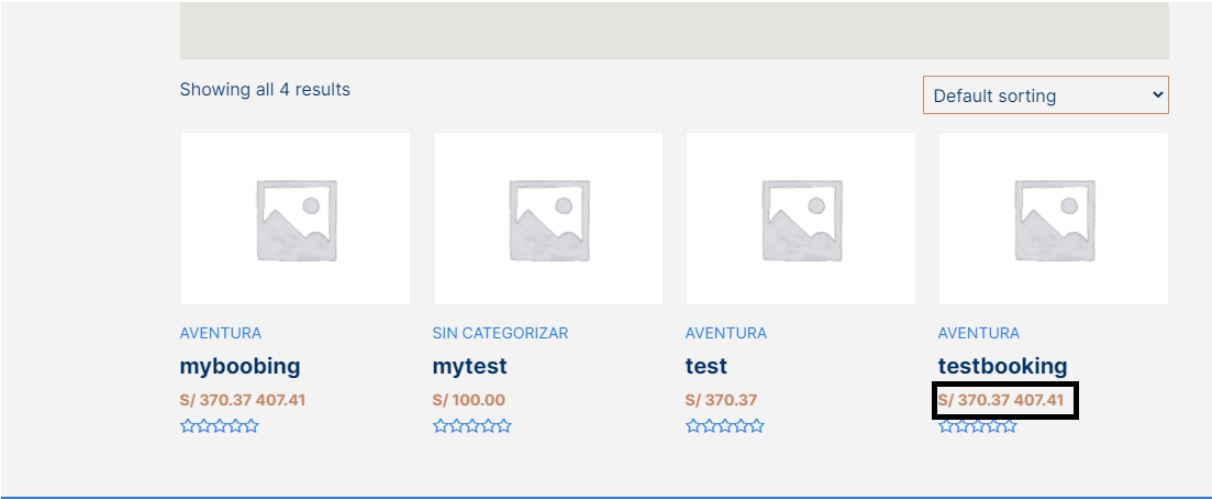

Figure 1. bookable product added with USD as currency

The screenshot shows a product reservation interface. On the left is a placeholder image for the product. The main heading is 'testbooking' with a price of 'S/ 370.37 407.41' highlighted in a box. Below this is a calendar for 'JUNE 2021' with dates 28, 29, and 30 highlighted. A summary box shows 'Booking: 30 de June de 2021' and 'Booking cost: S/ 814.81'. A 'Book Now' button is at the bottom. A 'PEN' icon is on the right.

3. Installation process

The **SCD ph booking appointments woocommerce and ph bookings integration addon plugin** can be installed automatically or manually. The installation processes for this plugin are shown below:

3.1. Automatic installation

Automatic installation is the easiest option because WordPress handles file transfers itself and you don't need to exit your browser.

To do an automatic installation of the **SCD ph booking appointments woocommerce and ph bookings integration addon plugin**, log into your WordPress dashboard, navigate to the Plugins menu and click on " Add New ", in the search box, type " WooCommerce Multi-Vendor Add-On (Global Tax Calculation) " and click on " Search Plugins ". Once you find our plugin, you can see the details of it such as version, rating and description. Most importantly, you can install it just by clicking "Install Now".

3.2. Manual installation

- ❖ Unzip the file and upload the folder to your plugins folder (/ wp-content / plugins /) overwriting old versions if they exist.
- ❖ Activate the plugin in your WordPress admin area.

4. SCD configuration process ph booking appointments woocommerce and ph bookings integration addon in woocommerce

After installing and activating the **SCD ph booking appointments woocommerce and ph bookings integration addon plugin**, it is ready for use. No configuration is required for its use.
